Thread drawing is our specialty. Denise Cawley attended art school and is an accomplished artist. She can draw most anything in thread. If you would like to see how Denise 'paints' with thread, visit the gallery on her web site. If you have a special idea in mind for all or part of the quilt, call to discuss or mark on your order form. Thread drawing prices vary, but it makes your piece entirely unique. Thread drawing is priced at \$.06-.12/inch. This technique may be applied to part of your quilt and the rest of your quilt may have a different technique and pricing structure.

Batting Selected for Optimal Quality

100% cotton: .00289/ sq. inch (\$12.49/ linear yard)

Matilda's wool – queen size \$44

100% Wool - \$13/yard of a 96" bolt

Purchase of our batting is required and selected batting works best with our machine. Buying batting from us is usually more economical because you pay for it by the square inch – so you pay for only what you use. It's also on rolls, making it free of wrinkles.

Backing/Lining

You are welcome to provide your own or select one of ours. We use only the very best quality fabrics. Even our muslin is 200-thread count. Most of our designer commercial fabrics are \$8-10/yard. We also offer hand-dyed backing fabric for a one of a kind treasure priced at \$25/yard. When you purchase a hand dyed backing fabric along with quilting services, you receive 20% off the hand dyed fabric (\$20/yard sale price). Consider a hand-dyed back to create a reversible quilt that is a piece of art from top to bottom.

Thread

Price will vary for specialty or variegated thread. An extra charge may be added for thread painting/drawing due to large quantities of threads used. The first two times we change thread colors on your quilt are free and \$3 each time thereafter. Pizzazz Studios enjoys offering a variety of solid, hand dyed, specialty, and variegated threads from Valdani, Maderia, and Superior.
